

Carey's Corner

Back to the School and Baseball

After a couple of months off from their studies, it is time for students to return to the classroom so that they may be EDUCATED but not indoctrinated by their teachers.

Also, in the Fall on the sports front, after nearly a year away from the game, some kids and adults feel it is time to resume the game of football.

However, some states, including a couple in New England, recognize that autumn weather is more conducive to playing baseball—not football—and that is what they do— play baseball. And a few of these baseball lovers play real baseball the way it was meant to be played, that is with the safer wooden bats, not the more dangerous metal weapons. After all, it is better to have cracked bats than cracked heads.

Until next time this is Dick Carey reminding you that, at "Carey's Corner," you always have someone in your corner.
